Re: Construction Permit
MJ Farms
AI ID: 6077
Activity ID: APE20080002
Marshall County, Kentucky

Dear Mr. Riley:

Enclosed is a construction permit for your operation. The construction permit authorizes construction/installation of your wastewater treatment system. Please take specific note of the following requirements of the enclosed construction permit:

- Construction of this system must be started within one (1) year of the approval date of the construction permit. If construction is not started within a year and it is your intention to install the system, you must request an extension of the permit prior to the expiration date.
- After the construction of this system is completed, within thirty (30) days you must submit a written certification to the Division of Water that the facility has been constructed in accordance with the approved plans and specifications and approval conditions.

In addition, the provisions of your permit are established to protect human health and the environment. These requirements have been established to protect both you and your family, as well as your neighbors. **You may be subject to enforcement action, including fines, if you fail to comply with these requirements.**

If you have any questions regarding this permit, please contact Ronnie Thompson, of the Operational Permits Section, at (502) 564-8158, extension 4896.

Sincerely,

Sandra L. Gruzesky, Director
Division of Water

DIVISION OF WATER**

TO: MJ Farms

ADDRESS: 156 Ross Lane, Benton, Kentucky 42025

Pursuant to your application submitted to this office on September 26, 2008, together with engineering plans, specifications, and other supporting data, the Cabinet authorizes the issuance of this

CONSTRUCTION PERMIT

Therefore, by authority of Kentucky Revised Statutes Chapter 224, etc., you are authorized to construct an animal wastes handling system at:

MJ Farms, 700 Phelps Road, Benton,
(Name of Facility, Location, City)

Marshall
(County)

In accordance with the plans, specifications, and other information submitted in your application. The permittee is also subject to the following conditions:

Hog Waste Holding Pits - (2480 hog maximum)

APPLICANT MUST MEET THE FACILITY REQUIREMENTS ATTACHED

Unless construction on the works specified herein is begun on or before the ____ day of _____, this Construction Permit shall be null and void, and a new permit will be required before construction may begin. A single twelve (12) month extension to begin construction may be granted provided site conditions have not changed.

Issued this ____ day of _____

Sandra L. Gruzesky, Director
Division of Water
